## Disclosure Continued

This site and the information contained in it should not be the basis of an investment decision. An Investment decision should be based on your customary and thorough due diligence procedures, which should include, but not be limited to, a thorough review of all relevant term sheets and other offering documents as well as consultation with legal, tax and regulatory experts. Any person subscribing for an investment must be able to bear the risks involved and must meet the particular Fund's suitability requirements.

Some or all alternative investment programs may not be suitable for certain investors. No assurance can be given that any Fund will meet its investment objectives or avoid losses. A discussion of some, but not all, of the risks associated with investing in the Fund can be found in the Fund's private placement memoranda, subscription agreement, limited partnership agreement, articles of association or other offering documents as applicable (collectively the "Offering Documents"), among those risks, which we wish to call to your attention, are the following:

Future-looking statements, Performance Data, and strategy-level performance reporting: The information in this site is NOT intended to contain or express exposure recommendations, guidelines, or limits applicable to a Fund. The information in this report does not disclose or contemplate the hedging or exit strategies of the Fund. While investors should understand and consider risks associated with position concentrations when making an investment decision, this report is not intended to aid an investor in evaluating such risk. The terms set forth in the Offering Documents are controlling in all respects should they conflict with any other term set forth in other marketing materials, and therefore, the Offering Documents must be reviewed carefully before making an investment and periodically while an investment is maintained. Statements made in this release include forward-looking statements. These statements, including those relating to future financial expectations, involve certain risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements.

## Disclosure Continued

Unless otherwise indicated, Performance Data is presented unaudited and “net” of management fees and other fund expenses (i.e. legal and accounting and other expenses as disclosed in the relevant Fund’s Offering Documents”) and net of performance allocations. Due to the format of data available for the time periods indicated, both gross and net returns are difficult to calculate precisely. Accordingly, the calculations have been made based on in some cases limited available data and a number of assumptions. Because of these limitations, the performance information should not be relied upon as a precise reporting of gross or net performance, but rather merely a general indication of past performance. The performance information presented herein may have been generated during a period of extraordinary market volatility or relative stability in a particular sector. Accordingly, the performance is not necessarily indicative of results that the Fund may achieve in the future. In addition, the foregoing results may be based or shown on an annual basis, but results for individual months or quarters within each year may have been more favorable or less favorable than the results for the entire period, as the case may be. If index information is included, it is merely to show the general trend in the markets in the periods indicated and is not intended to imply that the portfolio was similar to the indices in either composition or element of risk. This report may indicate that it contains a hypothetical or actual performance of specific strategies employed by The Adviser, such strategies may comprise only a portion of any specific Fund’s portfolio, and, therefore, the reported strategy level performance may not correspond to the performance of any Fund for the reported time period.

**Investment Risks:** Investing in the Fund is speculative and involves varying degrees of risk, including substantial degrees of risk in some cases. The Fund may be leveraged and may engage in other speculative investment practices that may increase the risk of investment loss.

Past results of the Fund investment manager are not necessarily indicative of the future performance of the Fund, and the Fund's performance may be volatile. The use of a single advisor could mean a lack of diversification and, consequently, higher risk.

The Fund may have varying liquidity provisions and limitations. There is no secondary market for investors' interests in the Fund and none is expected to develop.

### **Not Legal, Accounting, or Regulatory Advice:**

This material is not intended to represent the rendering of accounting, tax, legal or regulatory advice. A change in the facts or circumstances of any transaction could materially affect the accounting, tax, legal, or regulatory treatment of that transaction. The ultimate responsibility for the decision on the appropriate application of accounting, tax, legal and regulatory treatment rests with the investor and his or her accountants, tax, and regulatory counsel. Potential investors should consult and must rely on their own professional tax, legal and investment advisors as to matters concerning the Fund and their investments in the Fund. Prospective investors should inform themselves as to: (1) the legal requirements within their own jurisdictions for the purchase, holding, or disposal of investments; (2) and applicable foreign exchange restrictions; and (3) any income and other taxes which may apply to their purchase, holding and disposal of investments or payments in respect of the investments of the Fund.
